NOT A DEVICE OF STATESMANSHIP.

From The Utica Press.

That the silver men realize they are in the minority is evidenced by their unwillingness to come to a vote and thus decide the question. The whole matter, under the present plan, simply resolves itself into a test of endurance. There is no statemanship about it, and no attempt to convince anybody by argument.

INFINITE FOLLY.

From The New-York Advertiser.

What infinite folly is this of which the Senate majority is guilty when it permits a minority to compel a continuous session to enable business to be attended to, while nothing else in the world is necessary to be done than to pass a resolution by a majority vote so changing the rules as to permit the majority to control, as contemplated in the Constitution:

A HUMILIATION FOR THE COUNTRY.

From The Providence Journal. it is a very curious sort of "courtesy" which leads to such an undignified exhibition as the United States Senate presented last night. Matters have surely come to a humiliating pass when, in a country of civilized and intelligent people, the power to make laws is awarded in a contest of physical endurance to the men who prove themselves able to go without sleep the longest.

HARD PEOPLE TO SILENCE.

The outcome of this extraordinary expedient is not readily foreseen, though there is little reason to think that it will really drive the fillbusters from their amiable task of taiking to death the business interests of the country. They are full of stubbornness and the exhaustless wind of argument. NOT PROVIDED FOR IN THE CONSTITUTION.

The question whether a bill, on the passage of which three-fourths of the people of the United States are insisting, shall be put to a vote is not to be decided by the majority of the Senate, but is to be left to depend on the bodily ability of a majority of Senators to sit up more nights than the minority of Senators. This is certainly a curious way to legislate, quite undreamed of by the framers of the Constitution.

ALL FOR A PUERILE NATION. The Philadelphia Ledger.

This degradation of the Senate of the United States and this sacrifice of the welfare of the nation have had but one excuse, and that too puerile to be for a moment seriously considered. It is that the preservation of the "courtesy of the Senate" is of more importance than the preservation of national prosperity; more commanding than the expression of the popular will; more potent than the power of the country.

A VERY PATIENT COUNTRY. The test of physical endurance has begun in the United States Senate. It does not follow, but it does accentuate, a test of the country's patience. There is no excuse for this dragging down of what has been the most dignified legislative body in the world to the level of a six days' pedestrian contest OF a fasting match.

DECISIVE VOTE OF THE AMERICAN BOARD.

THE RECOMMENDATION OF THE COMMITTEE OF EIETEEN ADOPTED BY AN OVERWHELM-

ING MAJORITY.

Worcester, Mass., Oct. 12.-There was an attendance of 1.500 persons when the meeting of the American Board of Foreign Missions was called to order by President Storrs this morning, and the audience increased as the morning advanced, until the hall was crowded. There was singing, folowed by prayer by the Rev. Dr. Daniels, of New-York. Dr. Stimpson and Dr. Storrs rebuked the Gilroy yesterday "copies of papers pertaining to distribution in the hall of prejudicial literature unauthorized by the board. Chairman Henry D. Hydereported as follows for the Committee of Fifteen;

Whereas, A letter has been received from Secretary with him and to take his place at the end of the oming year or somer, if his health should require his arlier retirement, and announcing his intention of then withdrawing from active service, in accordance with the acssage of the Board that seventy years should be the nit of such service, it therefore seems destrable that an assistant should be appointed who shall be prepared to take be place thus vacated at the annual meeting of 1894.
It is therefore resolved that the Committee on Nominaion of Officers be requested to nominate a committee of you re-ive, who, with Expresident, shall be empowered to appoint that the in assistant secretary in accordance

That, beginning at the annual meeting of 1894, the nembers of the Prudential Committee shall be elected see classes, one class to serve three years, one class two cars, one class one year, and that at the expiration of thes members shall be chosen in classes for terms each. It is further recommended that n

(c) That the Prudential Committee be requested to secure the necessary legal authority, through a change in the charter, to carry the above vote into effect. (d) Resolved, That this Board, in response to the ex-

pressed wish of its missionaries in Japan, and in recognition of the successful labors of the Rev. William H. Noyes in that empire, requests the Prodential Committee to offer to him an appointment as missionary of the Board.

The Board declares that this action is not to be understood as in any way modifying its former utterance on the subject of Juture probation. Respectfully submitted, Heary D. Hyde, A. N. Quint, Henry Fairbanks, George P. Fisher, Ezra A. Stevens, Charles Ray Palmer, J. M. W. Hall, Charles F. Thwing, Chester Holcombe, S. C. Bart-

tt, John H. Washburn, James Brand, Samuel H. Virgin A. Lyman Williston, Galin C. Moses. The Rev. Dr. Fisher spoke in explanation of this for the board to amend or modify the instructions contained therein. He believed the course a just one. Though personally he did not believe in the sentiment embodied, he did not believe that the

ssue should be settled by this case. The Rev. Dr. Bartlett reinforced Dr. Fisher, and said the Noyes case was discussed thoroughly, and it was the chief argument in his favor that he was on this matter entirely confused and illogical. He did fail actually for that reason, but for the sake of harmony he (Dr. Bartlett) thought it best to let the matter drop. The man himself is not worth fighting over.

Dr. William E. Parks offered a resolution signed y Edward P. Goodwin, W. E. Nash, George C Magoun, J. E. Rankin, Joseph Cook, John R. Thurston, S. J. Humphrey and a number of others, stated that "the appointment of the Re-Mr. Noyes as a missionary to Japan means a great deal more than is apparent on the surface, and in volves a final and permanent change in the theology of the board," and that he "holds the doctrine of probation after death, which is attended with a coseness of view in the interpretation of the Scripture," and recommended that Mr. Noyes be not appointed.

Rev. Mr. Meredith spoke at length in favor of Mr. Noyes. He criticised the board as a body which has almost outlived its usefulness, and said the board was useful to the Congregational churches mly so far as the churches could use the machinery of the board in its work of foreign missions, but he did not care anything about the machinery, and would break it if he could. The people cannot go wrong in this matter. They do not bother and quibble over trilles, but are earnest in the in-terest of Christ. Mr. Noye; has been held up to the public gaze for ten years. He is indorsed by a church council, and the Japan mission wants him, and yet the board hesitates. Mr. Noyes is under-stood by the people and the churches and by everybody except the committee of this board. Mr. Noves says he does not understand this, unless it is because the committee considers of paramount importance something which he thinks very little of. Where is there any one who thinks anything about probation after death except the American board? What does it amount to? The teaching that the heathen goes from this earth into eternal darkness is a libel on God. In conclusion Mr. Meredith offered a resolution favorable to Mr.

titled to the disclaimer that he never was as raditales to the discharge the was, and he was prepared to vote for Noyes and for 500 more just like him. He eloquently urged the meeting not to try to decide the future life, but to spread the good work and help the young men in their intellectual

The Rev. Joseph Cook, the famous lecturer, rose and attempted to read a section of the statement of Mr. Noyes, as taken from the records of the board. Dr. Meredith made a point of order that the record was not accepted by Mr. Noyes, and the president ruled the reading of the statement was out of order. Mr. Cook spoke at some length in an anti-Noyes strain. Mr. Cook said that the appointment of Mr. Noyes had been twice deelined from views that have been unchanged. His case could not be treated as an exceptional one because the point in dispute is a doctrinal one If Mr. Noyes is appointed, he said, the board would find itself abandoned by some of its members. If the doctrinal points of the board were to be changed, he asked that a year's notice be given. The Japan mission has native preachers who held the Gospel bronder than what Andover professes Mr. Noyes since he was declined by the Prudential Committee has not asked for an appointment The appointment of Mr. Noyes would subject the board to the attacks that have been made for the last even years. The reversal of the doctrines of the board would not be in accordance with the Scrip

minutes. Dr. Cyrus Hamilton said: "What effect will the ection of the board bave on our foreign missions For sixty years I have been familiar with the American Board. All the churches in the Oriental countries are established in the doctrine of probation after death. I have known the basest men to depend on their last hours to repent and then to send for the clerky. The hope of such a man was that by the discipline of suffering, sacraments of the church, prayers of the Virgin Mary and the Church his sins were remitted. This is the condition among the people of most of the oriental churches. Admit this case and you efface your record of eighty years. You go back on your evangelical record. I would rather my right hand would perish then sanction such a case. Chester Holcomb, of New-York, argued that the reason why this case is such a burning question with the board is that it is a just one. He said the board is not a close corporation, it is a representative of every Congregational church in the country. There is an honest conviction that Mr. Noyes comes within the limit. The future of the board trembled on the vote to-day.

The question was called for, and after brief remarks complimentary of the Committee of Fifteen, a rising vote was taken, and the apparent unanimity called forth applause when the years arose. Those opposed were scattering. The vote was yeas, 196; nays, 24, on the third resolution. The report as a whole was then unanimously adopted. countries are established in the doctrine of proba

MOTHER AND SON OVERCOME BY GAS

Camden, N. J., Oct. 12.-Mrs. Ada Coy, a widow, aged about twenty-eight years, and her seven-year old son. Harry, were found partly asphyxlated yesterday at No. 601 State-st. It is believed that their condition was not the result of accident. Mrs. Coy had lived in the house, which she owned, for about a year and a half, but four weeks ago she took her three children and told her neighbors she was going to Palmyra, where she had lived with her husband before his death, three years ago. When she went away she had her furniture packed up, but it was not removed until yesterday. That she had returned to the empty house after ship ping the furniture was not suspected until a strange man and weman visited it about 3 p. m. and after some trouble gained an entrance. The visitors found Mrs. Coy and her son lying unconscious upon the floor, with the gas turned on. Throwing open the windows, the man called a patrol wagon, and hasty means were used to bring the mother and son to consciousness. By the time the wagon arrived the two were so far recovered as to refuse to be taken to the hospital. They went sway with the two strangers.

So the Director-General announced that Mr. Hovey's place on the programme would be taken by Mayor Shanks, who had evidently come primed to make a discordant speech, although his name, as he took pains so to inform his hosts at the beginning of his speech, was not on the list. His first complaint was that through an unintentional oversight, the name Ireland was not included in the toast "Great Britain and Her Colonies."

The Director-General felt offended when the Lord Mayor also complained that Ireland was not represented at the Fair with a building of her own and courts of her own. When he said: "The next time don't have the McKinley tariff." Colonel Davis, who is a stanch Republican, stood up, and his eyes flashed with indignation. He said to his friends around him "I will call him down for that." When Mayor Shanks sai down nobody applanded the sentiments, and the Director-General quickly arose. In firm, but politic language, he informed the Lord Mayor that it was no time or place, and it till became him as a guest when asked to respond for an American commissioner to criticise American statesmen. As to his complaint that Ireland was not represented as a nation, it was absurd as well as discourteous to the Exposition officers, because only nations recognized as such by all the etvilized sented as a nation, it was absurd as well as of courteous to the Exposition officers, because of nations recognized as such by all the civilize powers could be represented at the World's Fair The Lord Mayor looked abashed and made no real Paid admissions to the World's Fair to-day wer 278,878.

AN INDIAN OUTBREAK THREATENED.

Chicago, Oct. 12.-There is said to be a strong possibility of another Indian outbreak in the Pine Ridge section. The Big Foot band, which Colonel Forsythe seriously crippled some time ago, recently marched, 400 strong, including 150 fighting bucks, from the Standing Rock Agency to Pine Ridge, where they declared they would remain if they had to fight. They said their people were buried there, and they wanted to make nome. Captain Penny immediately called out his sixty Indian police, arming each with forty rounds of cartridges, to preserve order, and two troops of the famous 9th Cavalry were dispatched to excert the Big Foot Indians back to Standing Rock. This may precipitate trouble. As Pine Ridge is not in this military division, nothing is known of any Indian trouble at headquarters here.

James F. Asay, Indian trader at Pine Ridge, who is now in Chicago, says he left there a few days ago, and that there is trouble in the air,
